

## Marina Voïkhanskaya, 81 year-old, cycles through in Eastern France to raise funds for Apt Hospital!

The Fund-raising Campaign for Apt Hospital in the Luberon, Vaucluse, France is proud to announce that Marina Vpikhanskaya, herself a Russian refugee, psychotherapist, with homes in Cambridge and in the Vaucluse in France, has offered to cycle 650km from Mulhouse (Haut-Rhin, France) to the market town of Apt in the Vaucluse. Her sponsored ride will raise funds that will contribute to the modernisation of the hospital that serves 35,000 people in the villages and hamlets of the National Park of the Luberon region. Not only does this medical centre care for the French community in the area, but also the sizeable international community who live there and the many tourists who visit the region each year.

The hospital has mounted a dynamic and visionary programme to enhance its services with the latest in computerised access for patients, nursing staff and doctors, improved single rooms with their own showers, family rooms for visitors, and upgraded insulation to reduce the cost of heating bills in winter and optimise energy efficiency. The hospital has been recognized with a special Government award for operational excellence. The private fund-raising goal of the campaign is to raise €1 million over 4 years.

Marina, aged 81, is part of it!

Marina's cycle ride will take her through some of the loveliest countryside in France, through Doubs, Jura, Ain, Isère, Drôme and Vaucluse, covering a distance of more than 650 km. The ride will take approximately 12 days (weather-permitting), starting on June 29, 2016.

Since 1982, Marina Voïkhanskaya has been cycling to raise funds for a number of charities including Caister Lifeboat in Essex, the Medical Foundation that cares for victims of torture, the Cambridge Psychotherapy Assistance Trust, an association which provides psychotherapy to those in need but without resources, and CPRE, the Campaign for the Protection of Rural England.

Please be generous in showing your support of Marina in her incredible and much appreciated enterprise! You'll be able to follow her journey on internet on [www.apt-hopitaldavenir.fr](http://www.apt-hopitaldavenir.fr)
